This template is designed to comply with requirements in WAC 246-341, 42 CFR Part 8.12, and Center for Substance Abuse Treatment (CSAT) Guidelines for the Accreditation of Opioid Treatment Programs.

The plan is separated into three parts:

- **Part One** - Pre-licensure Community Relations Plan

Part one must be **completed** and submitted with the licensing application.

- **Part Two** - Interim Community Relations Plan

Part two must be submitted to the department prior to the license being issued. The interim community relations plan is designed to document community concerns that may arise between submission of the application and issuance of an OTP license and certification by DOH. It is also used to document the mitigation plan related to the concerns identified.

- **Part Three** - On-going Community Relations Plan

The on-going community relations plan outlines the agency's proposed on-going community relations efforts after the facility has opened. This may be reviewed by the department during inspections.

Part One**Pre-licensure Community Relations Plan**Step 1:

Contact the county and/or city legislative authority and/or the Tribal authority, as applicable, in order to secure a location for the new opioid treatment program that meets county, city, or tribal land use ordinances.

Identify the legislative authority by contacting:

- Washington Association of County Officials (360) 943-1812, and/or
- Association of Washington Cities (360 753-4137, and/or
- The Tribal Administrative Office (If proposed site is on a tribal reservation or tribal trust land, the county is not required to be notified.)

Once the appropriate authorities have been identified, hold a meeting with them to discuss the proposed site of the program and to obtain a list of all pertinent stakeholder groups in the area. Documentation of these meetings will be required.

Step 2:

Work with the authorities or their designee to develop a community relations plan that includes documentation of strategies used to obtain stakeholder input regarding the proposed location. Stakeholder groups should include publicly elected representatives, potential referral sources such as substance abuse programs, social and health services providers and medical providers, business organization leaders, community and health planning agency directors, grassroots community organization leaders, such as neighborhood associations and schools, local police and law enforcement, and religious and spiritual leaders.
